JUDGMENTS AGGREGATE 3 QUARTER MILLION

COLUMBUS, O., February 7.—(By the Associated Press)—Judgments aggregating almost three-quarters of a million dollars were granted the Pittsburgh Tin Plate and Steel Company, of Marietta, Ohio, against its former officers and directors, and the brokerage firm of Goodman and Joseph, of Cleveland, in a report filed this morning in the Franklin county common pleas court by Attorney Henry A. Williams, master commissioner. The company brought action for an accounting.

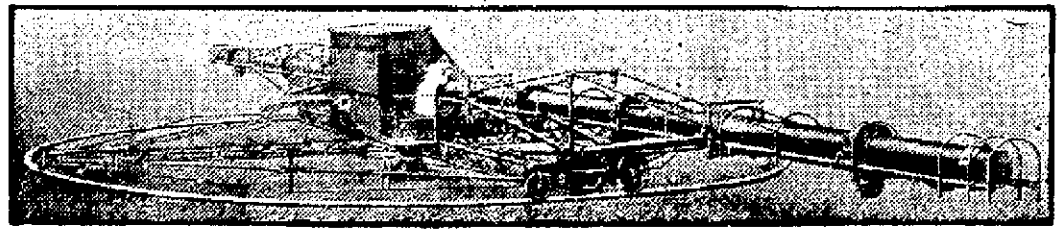

In his report, Commissioner Williams declared that the Cleveland brokers received \$556,309.52 from the tin corporation under three different commission contracts that were alleged. Under one of these contracts, the brokers received 15 per cent of their sales, under another 12 1/2 and under another supplemental contract 2 1/2, or a total of 25 per cent. These contracts were declared to be in violation of the Ohio blue sky law.

A finding in the same amount was made against Larkin C. Taylor, former president of the company, for permitting these brokerage contracts, and also for \$116,892.09 for the receipt of which from the treasury of the company he failed to make satisfactory explanation to the master commissioner. The commissioner held that Samuel L. Black of Columbus, an attorney, has a right to hold such as security for money due him by organizing the company.

Findings for the amounts paid the Cleveland brokers also were made against Curtis E. Waters, former treasurer, and John W. White, former secretary. White and Waters also in Cincinnati. Waters also is held for the amount paid by Taylor himself, and White is charged with \$117,412.99 which he paid himself as salary when the original agreement was that he should serve without pay. A further charge of \$20,000 is made against the secretary, representing dividends paid by the tin corporation to the company's officers, should the money be recovered after the judgments are rendered in the judgments, it will amount to \$721,581.

ARREST SOON IN TAYLOR MURDER CASE

LOS ANGELES, Feb. 7.—(By the Associated Press)—Sheriff Harris of Elko, Nevada, telephoned to the police department here today that the man at Carlin, Nev., thought to be Edward F. Sands, former butler secretary, wanted in connection with the murder of William Desmond Taylor, motion picture director, here, was not Sands, and has given a satisfactory account of his movements which dissipated all suspicion.

The sheriff's office, which has been conducting an independent investigation into the murder of Taylor, which it was previously announced was on the theory of a woman involved, announced today that an arrest would be made late today and that it would not be Sands.

The home of Mary Miles Minter was under a heavy guard of private detectives today and none save those with official permission were permitted to enter the grounds or residence. No explanation of their presence was made by the detectives who maintained silence when questioned as to the purpose or by whom they were detailed to guard the place.

Movie Actress Questioned

Another angle of the case involved the "drag and grapple" examination, as the detectives described it, of a well known motion picture actress at her home here. They declined to name her, but admitted she was one of a number who have indicated intimate friendship with Taylor.

While these developments were in progress and the police were sifting the constantly arriving "tips" on the case from various sources, preparations were being made for the funeral of the dead director this morning.

Officers To Be On Duty

This also was not overlooked by the police, for not only were ten uniformed men detailed to keep in order the great crowd expected to gather about St. Paul's Episcopal cathedral at two o'clock this afternoon, but a number of plain clothes men also were assigned to funeral duty in the hope even they might obtain a clue to the murder.

Flowers have come from many motion picture sources, including Mary Miles Minter, film actress, who sent a huge bouquet of black prince roses. Miss Minter took a last look at her friend Friday afternoon. Mabel Normand, another actress, who was one of the last to see Taylor alive, viewed his body for the last time at the inquest Saturday.

LaLorraine from New York, after a stormy voyage, and arrived in Paris this afternoon. They had hardly expected on sailing that they would reach Rome so early for the election of the new pope.

Critical Stage In The Irish Negotiations

LONDON, February 7.—(By the Associated Press)—The critical stage which the Irish negotiations have reached prevented Prime Minister Lloyd George and Austen Chamberlain, government leader in the house of commons, from attending the opening of parliament. It is unusual for the prime minister not to be in attendance while the king's speech is being read.

Arthur Griffith, president of the Dail Eireann, was in conference with the prime minister and Mr. Chamberlain at the prime minister's residence while the royal procession was passing through Whitehall.

Dyed Cats To Match Her Draperies

NEW YORK, February 7.—(By the Associated Press)—Miss Margaret Owen, 22, a singer, has her freedom today because she has promised Magistrate Harting that she will never again dye her cats to harmonize with her house draperies or the vivid lined clothing she wears.

Miss Owen was hailed before the magistrate, who agents of the Society for the Prevention of Cruelty to Animals testified she had dyed a valuable pet feline blue to match draperies in her home. The animal died, witnesses testified.

"If I consent to be lenient," said Magistrate Harting, "I want you to go back to Florida and stop dyeing cats."

She promised.

BONUS COST ESTIMATED OVER TWO BILLION

WASHINGTON, D. C., February 7.—(By the Associated Press)—The soldiers' bonus would cost the federal government approximately \$2,500,000,000 on the basis of estimates prepared for the house ways and means committee by fiscal officers of the army, navy and marine corps.

WASHINGTON, D. C., February 7.—(By the Associated Press)—The problem of selecting revenue sources to defray the cost of a soldier's bonus measure rested today in the hands of the majority members of the house ways and means committee, and the senate finance committee. Informing the majority members of the two committees at a White House conference late yesterday that whatever bonus bill was enacted should carry a revenue provision, President Harding joined in an agreement that they should confer jointly on the question of how the revenue should be raised, with the understanding that when a decision was reached it should be submitted to the president with a view to his concurrence.

Discussion at the conference of various means of raising the necessary money was said to have resulted in no conclusions. It was believed today the inter-committee conference would begin probably a day or two after the approaching conclusion of the bonus hearings before the house committee.

Three Mills Resume

WHEELING, W. VA., Feb. 7.—Three mills of the Yorkville plant of the Wheeling Steel Corporation at Yorkville, Ohio, near here, resumed operations on an open shop basis today after being shut down by a strike of Amalgamated Association of Iron, Steel and Tin Workers since last July. It was announced. Strikers picketed the works, but there was no disorder.

President Michael Tigh, of the Amalgamated Association and other officials came to Wheeling from Pittsburgh.

Partners Pour Bullets Into Each Other

TOLEDO, O., February 7.—(By the Associated Press)—Harry Maritzigan, 28, and Arthur Simonian, 29, partners in a rented farm near Swanton, are in the Lucas county infirmary hospital seriously wounded as a result of a gun battle during a quarrel over the farm late yesterday.

Simonian, who has been working in Akron during the winter, returned to the farm yesterday to pay a note held against him by Maritzigan. A quarrel ensued when Maritzigan refused to give him a receipt for the money and it is said Simonian shot his partner four times with a revolver, one bullet piercing his lung. Maritzigan in returning the fire sent seven bullets into Simonian's body. Two hours later the men telephoned Toledo for an ambulance and were taken to the infirmary hospital, where it is said that Simonian is in a serious condition and that Maritzigan will probably die.

Guests Flee Flames By Jumping From The Windows

RICHMOND, VA., February 7.—(By the Associated Press)—Three persons are known to be dead and at least 25 injured in a fire here early today which destroyed the Lexington Hotel, Twelfth and Main streets, and several adjoining buildings with a loss estimated at \$150,000.

Seventy-two persons were guests in the hotel and it is believed by the police the death toll will reach between 15 and 20.

A search of the ruined hotel began at 10 o'clock.

A wall at the fire escape collapsed and is believed to have entombed several persons.

Many were injured by leaping out of the windows.

The flames quickly spread to the The Savings Bank of Richmond, The Pearl Laundry, The Co-operative Exchange, The Anderson-Wilson Paper Company plant.

The Clyde W. Saunders Printing plant, all of which were badly damaged.

The known dead are: Hiram B. Austin, Newcastle, Va. M. J. Fox, Williamsport, Pa. C. M. Thomas, sheriff of Albemarle county, Virginia.

David H. Pitts, member of the Virginia house of delegates, who lived at the hotel, was seriously injured in jumping from a window of the structure, which at one time was one of the elating hostilities of Richmond.

"I was at the desk when I saw the smoke and fire creeping up the fire escape from the basement," said R. D. Frey, clerk. "I grabbed the telephone, but it was out of order. Men had been working on the switchboard and the connection was severed. I told the boy to get up stairs and notify the guests. The smoke and heat was intense and I do not know how many he was able to arouse."

"When I got back from turning in the alarm the flames were roaring up the elevator shaft. It seems that few caught the fire escapes with which the building was equipped. Most of the women appeared at the windows and several of the guests started jumping down. I do not know how many were injured but I think there were a great many. There were 72 guests in the hotel last night. I had just finished counting up when I discovered the fire. It was just a few minutes after four o'clock. Several people jumped down from the third floor and I believe fatally injured themselves. My lungs soon filled up with smoke and I could do nothing but get into the air or faint."

L. B. Pettus, the proprietor of the hotel, was overcome by smoke and had to be taken to his home.

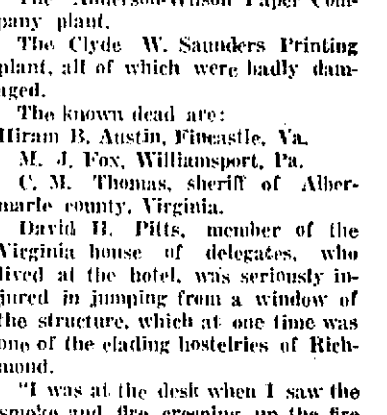

In the search for the dead, progress was very slow as the interior was filled with smoke from the fallen wreckage and the heat was still intense.

Coronation Of Pope Pius XI Set For February 12th; Expect Breach With State To Be Healed

ROME, February 7.—(By the Associated Press)—The Vatican today began to resume its usual brilliance, eclipsed by the death of Benedict XV, in preparation for the coronation of the new pope, Pius XI, on February 12. The pontifical household was being set in order, and the rooms used by the convalescing during the election will soon assume their normal appearance.

All Italy, judging from the messages received at the Holy See, seems full of joy that Pius XI sits on the throne of St. Peter. All predict from his first apostolic benediction, that the breach between the church and the state will be healed during the present pontificate.

HARDING ORDERS WORK HALTED ON FAR EAST FORTIFICATIONS

WASHINGTON, Feb. 7.—(By the A. P.)—President Harding will order suspended all work on vessels now building which are destined for the scrap heap under the naval treaty, but will issue no final order for discontinuance of the work until the treaty is actually ratified, it was said today at the White House.

The president, it was stated, already has ordered suspension of work on additional fortifications on the island of Guam and likewise further developments under way in the Philippine islands, taking his action in view of the clause of the naval treaty fixing the status quo for those Pacific islands of the United States.

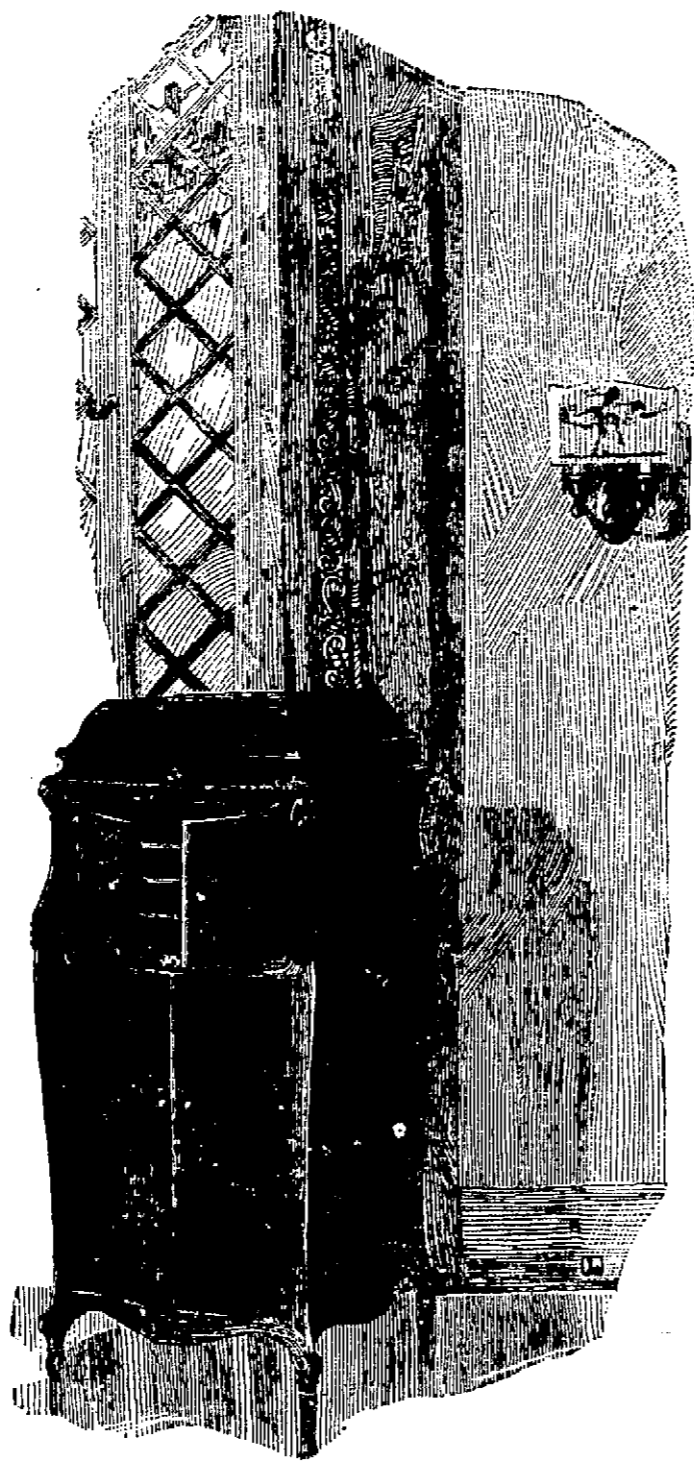

The treaties resulting from the arms conference, it was said at the White House, are expected to be sent to the senate the last of this week, although this will depend on submission of the report of the American delegation to the president. Mr. Harding it was added, has not yet decided whether he will present the

RHEUMATISM HAD HIM IN ITS GRIP 50 YEARS

Restored To Splendid Health By Tanlac, Well Known Roxbury Citizen Makes Remarkable Statement To Public.

Had Spent Thousands Of Dollars and Tried Every Known Remedy Without Finding Relief.

"Getting rid of the rheumatism at this late day completely mystifies me, for I had had it for fifty years and had spent thousands of dollars," was the statement made, recently by William H. Hayes, a well-known resident of Roxbury, Mass., in relating his remarkable experience with Tanlac. Mr. Hayes has been identified with the people of Roxbury for forty years and is highly respected and esteemed by all who know him.

"This rheumatism got me when just a lad in my teens and, while I resorted to every known remedy, I kept getting worse as the years went by. For the past few years every bone in my body seemed to be aching clean to the marrow and my joints would get so stiff and sore it was agony to bend them. For two years past the pains in my feet and legs were so intense for days at a time that I could not put my feet on the ground. When I did get out I simply had to hobble along at a snail's pace. The pains finally settled in my arms, shoulders and hands. These two hands were so swollen and out of shape I could not hold a pen or pencil to write a letter. I couldn't sleep at night, saw no ease or comfort during the day, and life was truly a burden.

"Well, I was just about ready to give up the fight when my attention was called to Tanlac. How this medicine has done it I don't know, but I do know I haven't an ache or pain, and I believe I could get out there and walk a distance of five miles and make it in record time. To put it all in a few words, I am now in better condition than I have been in a half century. I don't think anybody could have better reasons for feeling thankful to Tanlac than I have."

Tanlac is sold by Fisher & Steich Pharmacy and by leading druggists everywhere.—Advertisement.

Pledge Of Devotion From The K. Of C.

NEW YORK, February 7.—(By the Associated Press.)—A pledge of devotion from the 800,000 members of the Knights of Columbus in the United States, Canada, Newfoundland, Cuba and Mexico will be delivered to the new pope, Pius XI, by a special representative of the organization. Edward L. Hearn, of this city, announced today he would sail Saturday for Italy, where he is to direct the proposed Knights of Columbus welfare work program, before taking up the duties he will visit the Vatican and present the pledge, it was announced.

Expressions of fealty from the organization have already been sent the pope through Cardinal Gasparri, to whom Supreme Knight James A. Flaherty, of the Knights of Columbus, cabled asking that the tribute be held before Pius XI in the name of the organization's members.

To Conduct Observation Of Ice Floes

WASHINGTON, D. C., February 7.—(By the Associated Press.)—The coast guard cutter Seneca will leave New York for Halifax tomorrow and thence proceed into the north Atlantic on her annual ice observation cruise of Newfoundland and the grand banks. Reaching her station by the middle of February, the Seneca will cruise north of the transatlantic steamer lanes observing the condition and movement of the ice, radiating all data to the branch hydrographic office in New York for broadcasting to coast radio stations and mariners.

Each year about February 1, the hydrographic office of the navy receives the first report on ice in the north Atlantic. This year the steamer or St. Charles radiated on January 21 that ice fields were observed at about latitude 41 north and longitude 18 west, about 200 miles east of Newfoundland or on the edge of the grand banks.

Since the Titanic sank in April, 1912, with a loss of 1,517 lives, after striking an iceberg, an early ice observation cruise is made off the banks during February and March, and an ice patrol is established from April to July at the expense of the maritime nations, the duty being assigned to the United States coast guard.

THIEF VISITS HOME; NOTHING MISSING

Considerable of a burglar scare was caused at the John Staiger home, 1113 Eighth street about seven o'clock Monday night when the discovery was made that the house had been entered by a thief with the aid of a duplicate key.

The invasion was discovered by Mr. Staiger when he dropped into his home on his way down town from the

home of a sick relative on Ninth street where he and his wife had spent the afternoon. Finding the front door open Mr. Staiger started an investigation which disclosed a desk, bureau drawers and closets had been ransacked but nothing of value has so far been missed. It is believed the invader was frightened away and that he left by the rear door which was found open.

Carver Is Found Guilty

It required a jury in Common Pleas court less than thirty minutes Monday afternoon to return a verdict finding Emory V. Carver guilty of shooting with intent to wound Abner C. Dixon on the night of Dec. 27 last, and not guilty of shooting with intent to kill.

The state claimed that jealousy was the cause of the shooting, which occurred at the home of Mrs. Lou Hughes, Gallia and Glover streets, and accused evidence in support of the contention. The testimony disclosed that on the night of the trouble Carver on going to the Hughes home discovered Dixon there and immediately opened fire, one bullet lodging in Dixon's foot. The gun-user claimed that he only shot to frighten

Dixon and disclaimed all intention of shooting him.

Attorneys Funk and Hosteter, who defended Carver, promptly gave notice of asking for a new trial. Prosecutor Sheppard appeared for the state.

HAIL THE WOMAN

In acknowledgment of the splendid tribute American womanhood in Thomas H. Ince's

to the new social and economic position of great drama of today, "Hail the Woman"—

The Public's View

The public is going to "live" in this production. It is going to see real life—which is what it wants! Gone are the days in which a "namby-pamby" plot of impossible characters could hold the audience! Nowadays men and women, youth and age alike, want to see characters of "flesh and blood." The public has "grown up," as Theodore Roberts phrases it, and even youngsters of fifteen are shrewd and exacting critics these days. It is for such a public, that "HAIL THE WOMAN" is designed, and that's why it is going to have such tremendous success throughout the country.

The public will "live" the tense situations in "HAIL THE WOMAN."

A great motion picture is presented here this week in which magnificent tribute is paid to American womanhood.

It visualizes the new position of the American. It pictures her conquest over every-day economic conditions. It is a drama of "just folks" for the characters might be you, your son, your mother or your daughter.

It is not a political preachment, nor a sermon on morality—just a human drama of American life.

We would like to proclaim this week at the Columbia Theatre, "Hail The Woman" week and offer an opportunity to you to pay special tribute to the women who are dear to you.

Increases the action of the intestines

Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In one section of tested cases, normal function was restored in from 3 days to 5 weeks.

Try it out for yourself. Begin today by adding 2 or 3 cakes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. Be sure it's Fleischmann's Yeast—the familiar loaf package with the yellow label. Place a standing order with your grocer.

Science now shows why we may sometimes grow weak, thin and emaciated upon an abundance of food (lacking in Vitamins) while with a much smaller amount of food, rich in Vitamins, we may quickly take on good, firm flesh, increase in weight and make a remarkable gain in strength, energy and endurance, provided, of course, that our blood contains a sufficient amount of oxygenated iron to enable us to assimilate our food properly. Without organic iron, both food and Vitamins are absolutely useless as your body cannot change lifeless food into living cells and tissues unless you have plenty of organic iron in your blood. This organic iron takes up oxygen from your lungs, and carries it to the organs and tissues, where it is absorbed into your blood like fire, unless with coal or wood and by so doing it creates tremendous power and energy. Without organic iron in your blood your food merely passes through your body without doing you any good. Therefore, in practically every case where Vitamins are necessary, organic iron is also necessary. For centuries scientists tried in vain to produce organic iron. At last the problem was solved, so that you may now obtain pure organic iron from any drugstore under the name of "Nuxated Iron," which is ready for immediate absorption and enters the system by the blood the moment it enters the system. If you merely wish to gain greater strength, energy, vigor and endurance, receive the recom-

Plan For Orthopedic Clinic

The health of the city children was the principal topic at yesterday afternoon's meeting of the Board of Health. Some plans were made that will be of great benefit to Portsmouth boys and girls.

There was much discussion of the plans which the state of Ohio has made whereby crippled children may receive examination and advice or operations, if necessary, at the expense of the state. The board decided to gain the cooperation of other bodies interested in the work and will hold an orthopedic clinic for the examination of such cases. Parents in cases that may be helped by treatment will be so advised and if state aid is needed, the children will be sent to a specialist in Columbus. According to plans a special school room and instruction will be provided for children who are crippled and unable to attend school. A conveyance to take them to school and bring them home is also furnished according to advices received from state officers who have charge of the work. A resolution, telling of the board's action will be presented to the Hempstead Academy at its meeting next Monday.

A plan was also outlined by Health Commissioner Tatle in which he told how other cities had furnished milk and wafers to school children at a cost of only a few cents a day and how the plan had worked in bringing about better health among the children, and he reserved the permission of the board to investigate the matter further when he is in Columbus next week and it is hoped to test the plan on a small scale in this city.

The following reports were submitted:

Health Commissioner Dr. Oral D. Tatle made the following report on diseases in the city: diphtheria 3, scarlet fever 2, chicken pox 2 and pneumonia 1. These are the dangerous diseases reported in his report. He also added that there have been more than two cases of chicken pox many cases not having a physician.

Dr. Crawford, city physician, reported 172 visits during the past month, 28 vaccinations, 101 free patients admitted to the Hempstead hospital.

William West, plumbing inspector, reported a total of 82 inspections, 21 permits issued and collections of \$70.75.

Dr. W. A. Quinn made his first report as city bacteriologist. He reported many examinations and added that he had the laboratory in the hospital in fine shape to take care of most of the ordinary cases.

It will be necessary to appoint one new member to take the place of the one resigned and the selection will be announced in a short time.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—I hear so many people talking about the Witherow trial and wondering why he got off so easy when Roy Chamblin was sentenced to the electric chair. They both killed a man and a woman and why is it that they did not get the same sentence. So many people are criticizing the court and discussing the case that I thought I would ask you what you think about it. If I were the court I would treat it alike.

A READER.
While they both killed two people, their cases are far different. The motive in the Roy Chamblin case was robbery and the element of premeditation and malice was admitted by Chamblin in his confession and his plea of guilty to the indictment. The court on hearing evidence only in respect to mitigating circumstances made a finding there were none, and imposed the extreme penalty. The Witherow case was submitted to a jury and it returned a verdict of first degree murder but recommended extension of mercy. The recommendation of mercy was solely a matter for the jury and under the law the imposition of sentence by the judge in the Witherow case was but a mere formality.

Dear Dolly—My friend and I have been arguing about the law and how it is enforced. Dolly does the sheriff make all the laws and try all the cases himself? I thought the sheriff was only to serve papers and arrest people. Please tell me if the sheriff in the court is supposed to try cases. TIMES READER.
If you and your friend would spend

less time arguing and a little more time reading and improving your minds you would not have to ask such foolish questions. The sheriff does not make the laws or try any cases. The sheriff arrests criminals and the court tries all cases.

Dear Dolly—I am coming to you for advice as I cannot stand it much longer. I have been married for 15 years and my husband curses from the time he gets up in the morning until he goes to bed at night. He never gives me a cent of money and when I ask for my money he says he hasn't got any. I don't know what he does with his money and I don't know what is the matter with my husband as I have his means ready on time and I always keep my house neat and clean and sew to get money to clothe my children. It looks as though he does not want us to eat, as he always says he paid for that grub. I haven't any clothes to go on the street with no money to buy any. Don't you think I ought to leave him. I could get money to work in the shoe factory.

WORRIED WOMAN.
I wouldn't leave him, but I would give him to understand that he wanted to change his ways if he wanted to stay around my house. If there is any love in him, let him do it. If he leaves he will have to pay you enough to support yourself and children. I think you have been too easy with him, and look too much on his back talk. Begin tonight or tomorrow and be the boss in your house. The first thing you do is to put a stop to his swearing. There is absolutely no excuse for anyone cursing, and I would not allow anyone to use such language in the presence of little children.

One Who Socks Advice—I do not know of any person whom you could consult with about the matter you inquired about.

Dear Dolly—Do you know when the soldiers will get their homes? NEEDS THE MONEY.
It was announced a few days ago that the bonus checks would be mailed out on February 10th.

Beauty brings success

Make your dreams come true

Every girl has blissful dreams of success and popularity—the flowers and books and candy and dates which proclaim her a social success.

She sees herself admired, the center of attention. What heartache and disappointment if these dreams should not come true!

Many a girl misses this popularity because of some defect she herself doesn't realize. A dull, coarse, lifeless skin lessens attractiveness—blisters and blackheads positively repel.

Remedy these disfigurements, transform your unattractive complexion into one of radiant freshness and see what a good time you have at your next party.

It is the charm which always attracts, which all women envy and men admire.

This isn't hard to do

The smooth, fresh, blooming complexion which makes an otherwise plain girl pretty isn't a gift of Nature, but a matter of care.

You can't neglect your skin and expect to keep it blooming and alluring. The powder and rouge you use to conceal defects deceive nobody.

The remedy for a coarse skin, for one disfigured with blackheads or ugly blotches, is daily cleansing with a lather blended from palm and olive oils.

Such a cleanser is so mild and soothing that it softens the skin and keeps it smooth. But it removes the accumulations of dirt, oil and perspiration which are responsible for most bad complexions.

Get a cake of Palmolive today

It is the modern combination of the same beautifying cosmetic oils Cleopatra used in the days of ancient Egypt. It is just as valuable today as a beautifying cleanser.

Massage its smooth, creamy lather softly into the network of tiny pores which compose the surface of your skin. It will remove the clogging deposits which enlarge these pores, cause blackheads and invite blotches.

After this thorough cleansing is the

Don't neglect throat and shoulders

Care of your skin must extend beyond the face if you want to be admired for complexion beauty. Use Palmolive for your daily bath and let it do for your body what it does for your face.

It will keep your neck and shoulders smooth, and your arms and hands soft and white. These are attractions as conspicuous as a blooming, blemishless face.

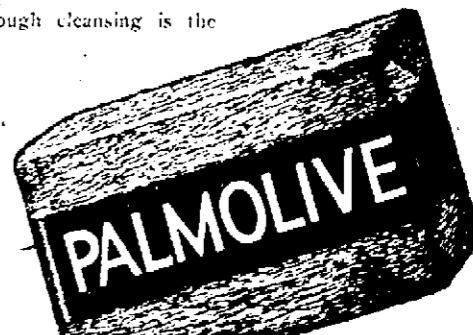

This beauty treatment costs little

Judge Palmolive by quality and you will expect to pay at least 25 cents a cake. But the popularity which keeps the Palmolive factories working day and night naturally reduces cost. Quantity production is always economical.

Thus this finest facial soap is offered at 10 cents a cake—a price all can afford. You can economically use Palmolive for every toilet purpose, for it costs no more than ordinary soap.

Maccabees After 100 Members

Portsmouth Tent, Knights of Maccabees regarded as one of the most progressive in the state in the last couple of years showed Great Record Keeper George P. Scott of Norwalk, and District Deputy E. M. The attendance last night was the highest of months and the interest taken indicated that the members are ready and willing to enter into the big membership campaign that starts immediately and does not end until October.

This is a special now member campaign and before it closes the local Tent expects to have at least one hundred members enrolled. Great Record Keeper Scott who has been here several times gave an interesting and impressive talk last evening during which he explained the details of the campaign for a victory class. Portsmouth Tent is in the Columbus district of Ohio and the local Tent is being looked to as the leader of the district. District Manager R. J. Gardner of Columbus is supervisor of the work in Columbus District but will have Deputy P. M. Doran of Columbus who will direct the campaign for several months. Death Claims Supreme Keeper Of Records

Next Monday night, the degree team of Magnolia lodge, K. of P., will start work on a class of about twelve candidates. The large rank will be given next week, on February 20 the 150th rank and on February 27 the Knight rank. On February 27 several Grand Lodge officers are expected here for the meeting and initiation.

Last night members discussed plans for furnishing a room in the K. of P. Home for the aged at Springfield. The room would bear the name of the local lodge.

Word was also received last night of the death of Supreme Keeper of Records and Sefas Fred E. Wheaton. The members were also in receipt of a letter from Leslie Ross, a local member, who is at a lodge health resort at Colorado Springs. He writes that he is on the road to recovery.

Adventures Of The Twins

BY OLIVE ROBERTS BARTON

THE next place to which Buskins took the Twins was called "Mist Land." It was another part of the Kingdom of Up-in-the-Air.

When the magic apple-tree elevator stopped and they all got out, there was a nice little train of cars to meet them and a jolly engineer looking out of the window.

Buskins introduced them, "Nancy and Nick, this is Scatolung, the steam fairy. Scatolung, these are the Twins and we're on adventures. I'm glad you are here to meet us."

Scatolung touched his cap and said that he was much obliged to meet them, and that he had been looking for them ever since he'd received Buskins' telegram that they were coming.

Buskins explained to the Twins that the reason all steam went straight up to the sky was because it was really a million fairies going to Scatolung for orders. He was chief of them all. "No one knows

Fireworks Set Off At Council Meeting

One warm session of New Boston council was held last night. Besides the presenting of charges against Fire Chief Raymond Haselby by Mayor Newberry, a big stir was caused when it became known that Talmadge Jones, Democrat, had been elected to a seat in the council. After his case was disposed of, a rumormongering was caused by big bills being presented for payment, several councilmen declaring they were too big for the first month of the new council.

The matter of Jones being illegally elected to a seat in council was the first trouble to be taken up by council. James Elliott, Democrat, was elected at the November election but he resigned to serve on the school board. At the first meeting of council the name of Talmadge Jones

was put before council. Republicans, Dr. T. H. McCann, Earl Wolfe and Oscar Huffman, a Democrat, voted for Jones and W. L. Davis and John Payton. Democrats voted against him, it being reported that the Democrats had someone else lined up for the job in place of Jones. Jones was illegally elected, it is said, on account of the place of Elliott not being declared vacant. It is necessary for Council to declare a vacancy before such can be filled. Jones had attended two meetings and had acted on legislation but it was of minor importance.

Last night a vacancy was declared and again the name of Jones was put before council for election. The two Republicans, McCann and Wolfe, voted for him while the Democratic

members, Davis and Payton, voted against him. Huffman was not present at the time of voting and as it stood a tie, Mayor William Newberry cast the deciding vote. He is also a Democrat and voted against Jones which leaves council with only five members.

Next in line came the bills for payment. The amounts of some of the bills were objected to and formed the basis of long arguments. Later Mayor Newberry explained to council that the bills were for more than five weeks work and that some were left from early in December. With these explanations council finally passed the bills for payment.

The matter of electing a councilman to take the place of Elliott or Jones will be taken up at the next meeting.

NEW BOSTON MAYOR AFTER SCALP
OF FIRE CHIEF; FILES CHARGES

Persistent reports that Mayor William Newberry, of New Boston, was after the scalp of Fire Chief Raymond Haselby were verified last night when Mayor Newberry presented to New Boston Council a communication in which he filed charges against Chief Haselby and asked that body to give him a hearing on the charges and to dismiss him if they are sustained.

Mayor Newberry is a Democrat and Chief Haselby a Republican. Ever since the administration changed hands there have been reports that Mayor Newberry wanted a new man at the head of the fire department.

Although he says he had heard the reports, Chief Haselby, who is only about 23 years of age, declares that he does not intend to resign. He says he was served with a copy of the communication presented to Council, the mayor giving him the notice this morning according to law. Asked for a statement Chief Haselby said: "Why the charges are nothing but falsehoods, it is merely a political scheme which I intend to fight to the finish. I will win if there is the least justice in Council."

The chief will be given a hearing before Council probably on the third Monday night in this month when Council holds a regular meeting.

The communication to Council was presented under the provisions of sections 4243 of the Ohio General Code wherein the Mayor is given the right to file charges against the head of a department or officer whom he believes guilty of negligence, incompetence or gross neglect of duty. Under these provisions Mayor Newberry filed the charges against Chief Haselby the communication setting forth six charges.

In part they are:

First—That on the 11th day of January he left the engine house and told the firemen to call him at his home. This was the night of the P. H. Harsha flour mill fire and when Chief Haselby was called at home he was not there and firemen

were told to call him at the home of a friend. Firemen called and could not locate him there. He was finally located after great delay and the trip made to the fire.

Second—That on the 11th day of January at the Harsha fire in the city he stopped the pump and cut a hose to let a railroad engine pass while the fire was being hosed.

Third—That on January 11 at the Harsha fire he cut the hose of the engine on the street and cut the hose to let a railroad engine pass while the fire was being hosed.

Fourth—That on January 17 he failed to be at his place of duty when the company received a call to Seletsville. Firemen tried to locate him as he had left instructions to call him at his home 20th Fifth street.

Mrs. Nora Taber who is arrested on the selling complaint and of by county officers following a raid upon her home at 2021 Fifth street Monday night and the morning after a further investigation and Taber showed a fine of \$100 and cost for possession of a moonshine still and a quantity of liquor, admitted guilty, unlawfully possessing the still and of selling liquor when a court officer, Sgt. Morgan Tuesday and her brother-in-law, Ernest Taber, who was also taken into custody for possession of a moonshine still and a quantity of liquor in his possession a quantity of hash at his home 20th Fifth street, pleaded guilty.

for them not to go to a call without him. After some minutes, lost in trying to locate him he was found at a basketball game.

Fifth—He left the engine house many times without telling the firemen where he could be located and many times visited Port-mouth where he could not be located.

Sixth—He is incompetent in that since becoming head of the department in July he has not learned how to operate the engine or pump or that he does not know how to drive the fire truck.

Chief Haselby was appointed by ex-mayor J. S. Davis in July 1921. The appointment holds good for two years unless he is removed upon charges.

Coronation

(Continued from Page One)

"It is, above all, abroad that one sees and feels how the pope constitutes the greatest dignity and prestige for Italy. Through him all the millions of Catholics in the whole world turn to Italy as a second fatherland. Through him, Rome is truly the capital of the world."

Prestige of Corney
"One would have to close his eyes not to see the prestige and advantage our country derives by his presence. When international weight is considered, he is superlatively sovereign. All nations recognize in him a divine institution. We Catholics of Italy who by divine ordinance have the care of him, are responsible in honor before the Catholics of the whole world."

No Radical Changes
Pius XI is occupied with the preparation of long lists of the prelates who will surround him as the spiritual head of 500,000,000 persons. There are unlikely to be very radical changes in the pontifical household, since Cardinal Gasparri retains his post as secretary of state, and many of Benedict's appointees are certain to be reappointed.

An army of workmen was busy in the Vatican today re-establishing the offices, ante-rooms, and audience-chambers, and the beds, tables, chairs, and wash stands used for the conclave were being returned to the hospitals and colleges from which they were secured. Within a day or two all will be as usual, the ambassadors will be making their calls on the new pontiff, and the flowing robes of the prelates and uniforms of the diplomats again will be in evidence.

Pleads Guilty

"Just Occasionally"

—Don't you like a good old-fashioned boiled dinner? Most folks do but it's such a punishment afterward trying to eliminate the hang-over odors, that most people simply desert themselves. But here's a remedy—many people turn to us while they're preparing dinner and afterward—the faint fragrance of plum, watermelon, rose, violet or sandalwood fills the house. We have the incense in powder, come or stick form, and a variety of Oriental designs in burners.

Jobless Source of Concern

"The great continued volume of unemployment among my people causes me deepest concern and will continue to receive the earnest attention of my ministers. The only remedy for this distressing situation is to be found in appeasement of international rivalries and suspicions and in the improvement of conditions under which trade is carried on all over the world."

Through Attorney W. R. Sprague, the plaintiff complains that Straub frequently assaulted and beat her during the time she lived with him.

Petit Jury Dismissed

The last jury case on the trial docket to come up at the September term of court, which ends Saturday, was disposed of Wednesday when Fred Barlow, under indictment for burglary, changed his plea to guilty.

As a result Judge Thomas dismissed the members of the petit jury from further service.

The two defendants were tried and convicted at their former trial in common pleas court, but the verdict was set aside by Court of Appeals on a technicality and the case is now up for retrial. The state is represented by Prosecutor Sheppard and Judge Blair.

Prefer Jury Of Men

LOS ANGELES, CALIF., February 7.—(By the Associated Press)—Work of obtaining a jury, preferably one of men, according to the defense, to hear the trial of Mrs. Madeline Obenchain, charged with the murder of J. Dalton Kennedy, was ready to be resumed today. When court was adjourned yesterday the jury box contained eight women and four men. Six members of the venire had been excused because of opposition to the death penalty or because of fixed opinion.

Mrs. Obenchain showed agitation when the death penalty was discussed, but otherwise seemed to maintain composure as she engaged in frequent whispered conversations with her former husband, Ralph R. Obenchain, of Chicago, now a member of her counsel.

SOCIETY

One of the most charming social events of the winter season was the tea given this afternoon by Mrs. Noah J. Dever, and her daughters, Mrs. William R. Sprague and Miss Ella Dever at the former's home on Gallia street.

The attractive Dever home was a most hospitable setting for the handsome guests worn by the hostesses and their guests. The rooms were prettily arranged for the occasion, palms and cut flowers being used in the decorations. More than one hundred women called between the hours of two-thirty and five-thirty. Mrs. George D. Selby poured the tea during the first hour and Mrs. G. D. Waite presided during the second hour. Refreshment plates were

passed by six attractive young maids—Misses Doris Hannon, Jean Purcell, Nancy Grimes, Elizabeth Nye, Dorothy Manning and Louise Bush, others who assisted in the various rooms were Misses Mae and Elizabeth Bicker, Leon Labold, Edna Davis, Robert S. Kyle, Marvin C. Clark, R. B. Cunningham and W. E. Gish.

Rev. and Mrs. L. E. Entler of Fifth street will entertain the archery group of Boy Scouts this evening at their home on Fifth street. The entertainment is the result of a contest between three patrol troops. About twenty boys will participate in the evening's festivities.

Members of the P. A. K. club will meet Friday evening at the home of Miss Edith Conliffe on Eighth street, instead of Wednesday evening, as previously announced.

Group Eight of Trinity Ladies' Society will meet tomorrow afternoon at the home of Mrs. Ray Seales, 217 Washington street, with Mrs. Joseph Lockett as assistant hostess. A full attendance is urged.

Mrs. and Mrs. George Schumacher of Huntington, W. Va., were the weekend guests of Mr. and Mrs. P. D. Hollister of 3628 Sixth street, enroute to Jackson, Ohio, where they will visit relatives and friends.

FORM NEW STOVE COMPANY

Portsmouth will gain an important new industry it was made certain today when plans were completed for the incorporation of the Sterling Stove company which will manufacture gas stoves. The process of incorporating the \$100,000 company, is now being carried out, and it is thought that the actual production of stoves will be begun in the completed plant not later than the latter part of April or the early part of May.

At the head of the new stove company are two of the most experienced stove men of the city, Messrs. Henry Scott and B. W. Hopkins, who will have associated with them Messrs. Henry F. Bertram and Robert G. Bryan, likewise well informed in the manufacture of stoves, and in their sale.

The Sterling Stove company will place on the market a complete line of cooking and heating gas stoves. Considerable preliminary work has

already been done, and the making of patterns is well under way. The plant for the new stove company will be erected at Tenth and Scott streets, across the street from the Neudorfer & Silcox and Horner warehouses. It will be of structural steel construction, making the early completion of the plant a certainty. It will be designed along modern lines that will assure the convenience

comfort and safety of the employees, and also assure economical production of the new line of stoves. The initial unit will be so designed that additions may be made at any time, as the business expands.

All of the men connected with the Sterling Stove company enjoy splendid reputations not only for being well up in their special line of industry, but for being the kind of business men in whom the buying public has confidence. They will start with the best wishes of the community for success, and have every prospect of building another profitable enterprise for Peerless Portsmouth.

Goes On Warpath; Evades Arrest

The police, it was learned Tuesday, are looking for a young man who went on the warpath in a poolroom in the North Moreland Addition near New Boston, Saturday night, and threatened to shoot up the place. When Capt. Stutzman and Chief Distel arrived there the gunman had disappeared. They secured his name and are attempting on his trail.

PAWNBROKER HELD UP; 3 ARRESTS MADE

The following from the Chillicothe News Advertiser of Monday is of interest here as D. R. Bruffman is well known here and is a brother of J. B. Bruffman of the Southern Loan Office on Chillicothe street.

G. V. Chapman, 24; Elmer Edmiston, 24; Frank Blacher, 24; all giving Columbus as their place of residence were caught on the banks of North Fork, near Frankfort Sunday afternoon at 1:50 o'clock by Chief of Police Fox, Officer Melvin and Deputy Sheriff Swann and were returned to this city to face a charge of robbing D. R. Bruffman, proprietor of the Southern Loan Office, 152 E. Main street Saturday night.

Bruffman identified the trio at once. As a second bit of evidence that he was correct in his identification, the number of a revolver taken from the men proved to be the same as that taken from the store Saturday night when the men fled.

Later Blacher confessed the whole affair to the police. At first he con-

fessed that he had not pulled a gun but after being questioned closely made a clean breast of the whole story. Edmiston held out that he had not participated and had only taken a gun in hand when it was handed to him. However, Edmiston as well as Chapman were implicated by the confession of Blacher.

While the three men will be bound over on the charge of robbery, at least two others might be preferred, namely, shooting with intent to kill and carrying concealed weapons.

The fact that Pearlman, Bruffman's friend, fired but two shots at the men and that there were in all five shots fired is evidence in itself that the robbers returned Pearlman's fire. In view of this latter fact, coupled with the statement that one shot landed in front of Edmiston's meat market and another lodged in a telephone pole on Palat street, police are led to believe that the shot that struck Louis Hydel, a pedestrian in the left aisle must have been fired by the robbers.

A Message to Feeble Old People

Erie, Pa.—"I am nearly 80 years old, and influenza left me weak, run-down and nervous so I could hardly keep around and do my work. I tried different remedies but did not seem to gain. THE ANGELS

In the beginning God created a vast number of pure spirits without bodies to adore and enjoy Him in heaven. These pure spirits, created to worship before the throne in heaven, and to be God's messengers to men on earth, are called angels. Some of the angels refused to serve their Creator, and with their leader, Satan, or the devil, were cast out of heaven and punished in the dreadful torments of hell. The good angels stood the trial, and were taken into the full and everlasting glory of God seen face to face.

Angels that watch over men with special care are called guardian angels.

Continued Elbinger Success Should Make Pfd. Conversion Privileges Valuable

The Elbinger Shoe Manufacturing Company's 8% Preferred stock may be converted, one share of preferred for two of common. 93% of the old stockholders endorsed this new 8% issue by subscribing to it. 2% dividends payable quarterly. Redeemable at 110.

Earnings for the past six years, 1915 to 1920 inclusive, averaged in excess of 125% per year on the common shares then outstanding.

HERE is a time-tested Ohio corporation, making a staple line of women's shoes in its modernly equipped factory at Lebanon, Ohio, which heretofore has not permitted its common stock to be held by outsiders. This new financing affords the investor the opportunity of securing one share of preferred and one share of common for the unit price of \$130 and gives the option of converting the preferred share into two common shares at any time he deems advisable, prior to 1928.

Aside from a splendid dealer trade the company enjoys, it now has large orders for shoes on its books from the country's largest mail

order houses and retail store organizations. 1922 should loom large in the company's history, and make the holding of its common stock quite profitable.

The proceeds from the sale of these securities are to be used in financing this coming year's great volume of business and to provide funds for the future conduct and expansion of the business.

Ample safeguards are provided for the investor's capital—that 93% of the old stockholders of the company have subscribed to this new issue demonstrates their faith in the company's stability. WRITE for descriptive booklet detailing the features of this security.

THE MARKETS

NEW YORK STOCKS

NEW YORK, Feb. 7.—With few exceptions the stock market made further substantial gains at the active opening of today's session. Junior rails, independent steels and oils again led the advance. Erie first preferred rose 1 1/2 points and accumulation of St. Paul pfd. St. Louis Southwestern pfd. New Haven and Rock Island was in progress. An early rise of 1 1/2 points in Gulf States Steel was soon increased to 2 1/2 points. Great Northern Ore. also came briskly forward. Maryland was strong, of the oils with Mexican and California Petroleum. Reactions running from fractions to two points marked the initial offerings of American Ice, Pierce-Arrow pfd. Pullman and American Steel.

Money rates stimulated the further rise of the first hour, call loans opening at five per cent as against yesterday's early rate of 4 1/2. Aside from Mexican Petroleum, American Sugar and American Woolen, however, the movement was limited to the specialties. Among these were Coca-Cola, Owens Bottle, Martin Turley and Kelsey Wheel pfd. Pressure against Pierce-Arrow pfd. extended to the common and Woodworth reacted upon its favorable annual statement. Tobacco also gave way on setting of Sumatra and Standard seeds and equipments reflected realising sales.

CHICAGO GRAIN
CHICAGO, Feb. 7.—Dealings on an unusually large scale accompanied a continuance of advancing prices in the wheat market today. New upturns at Buenos Aires and Liverpool had much to do with the rise here.

Harding

(Continued from Page One)
The president, it was indicated, will ask the speediest possible senate ratification consistent with proper consideration of the treaties resulting from the arms conference.

No need for any reservations to the treaties by the senate is seen by the president, who it is said would be reluctant to discuss the possibility of reservations.

In connection with the president's reference to preparedness in his speech before the arms conference yesterday, it was said at the White House that the reference was not "the statement of a pacifist and that the president does not believe in complete abandonment of naval defense, although believing that world opinion is a better guarantee of world peace than large armed preparedness."

Senate leaders of both parties go actively to work today on plans for the receipt and consideration of the international agreements.

Party conferences of senators for consideration of the treaties prior to the time they are taken up on the floor have been virtually determined upon by both Republican and Democratic leaders. No dates have been set, but it was understood the meetings to talk over the international agreements likely would come early next week.

Senator Lodge, of Massachusetts, and Senator Underwood, of Alabama, both members of the American delegations and leaders in the senate of their respective parties, have been informed of the almost unanimous desire of senators for the meetings are said to have expressed the feeling that full and free discussion should be had. Among the Democrats, the statement was made today that Democratic senators should know how far their leader had gone in supporting the treaties and what his position had been when the negotiations finally taken went beyond or fell short of his propositions.

There was no hint given by leaders of either party of an intent to have the parties take various action, or attempt to bind senators to a given proposition or stand.

Besides, talk was in the southwest. Heavy selling to realize profits, however, was in progress on the assumption that after 21 cent recent advance, the reasons for higher prices had been discounted enough. The opening which ranged from 1 1/2 to 2 1/2 higher, with May 1.29 1/2, to 1.20 1/2 and July 1.12 1/2, was followed by numerous changes within the initial range and then a slight setback.

Closing prices were unsettled 1/2 to 3/4 net higher, with May 1.28 1/2 to 1.25 1/2 and July 1.11 1/2 to 1.11 1/2.

Corn and oats advanced with wheat and the July delivery both of corn and oats touched the highest price for the present season. After opening 5/8 to 1 1/4 higher, May 59 to 60 1/2, the corn market reacted to a moderate extent, oats started 1/2 to 3/4 higher, May 40 1/2 to 40 3/4, and then eased somewhat.

Higher quotations on hogs tended to lift provision values.

The close was unsettled 1/2 to 3/4 net lower, May at 58 1/2 to 58 3/4.

OBITUARY

Johnson Funeral
The remains of J. S. Johnson, local automobile dealer, who died at Steubenville Saturday night, arrived here last night and were taken to the home of his brother, J. A. Johnson, 1124 Grandview avenue.

The body was taken to Wamsley M. E. church today, funeral services being held there this afternoon, with Rev. C. E. Conley, of Bigelow street in charge. Local Knights Templars also had a part in the last rites.

Mrs. Mary Yeager
Death this afternoon at 1:55 claimed another of the city's well known residents when the final summons came to Mrs. Mary Yeager at her home, 1524 Fourth street. She had been ill for some time, but not seriously ill since Sunday, when her condition took a decided change for the worse.

Mrs. Mary Yeager, about 70 years of age, was the widow of the late Peter Yeager, who was well known in the city. One daughter, Katherine Yeager, had remained at home with her for some years.

Surviving are three children: Miss Katherine Yeager at home, Edward Yeager, of Seventh street, and Albert Yeager, of this city.

Mrs. Yeager was a member of the First Evangelical church for a number of years. She had a legion of friends who did not know of her serious illness, and they will learn of her death with genuine sorrow.

She was a woman of kindly traits and deeds and will be missed. She was devoted to her children and was a woman known for her amiability and hospitality. To know her was to be her friend.

Dr. Jane Teagarden
Dr. Jane Teagarden, well known physician, who died at her home in Weymouth, Pa., was a cousin of Dr. S. B. McKerrigan of Gay and Eighth streets, this city.

The Weymouth Republican has the following to say of Dr. Teagarden:
"Dr. Jane Teagarden, a well known physician, died at her home in Weymouth, Pa., Wednesday, January 11. For several years she had suffered severely from rheumatism and for the past year had been confined to her room. A few days before her death it was thought that she had suffered a stroke of paralysis."

"Dr. Teagarden was born at the old Teagarden homestead in Richhill township, March 25, 1841. She was a daughter of Isaac and Sarah Park Teagarden, her ancestors being pioneers of Greene County."

"After receiving her education in the public school and Weymouth college she taught in the schools of the county and in Iowa. While teaching she was reading and studying, preparing herself for her chosen profession, the practice of medicine."

"In 1847 she entered the Woman's medical college at Philadelphia and graduated in 1851."

"Living at Weymouth where her family had removed, she began practicing and was for many years a successful and skillful physician. On account of failing health in the past few years she was forced to retire."

"She was the first woman physician in Green county. She held at various times all the important offices of the Green County Medical Society. Although she led the lonely life of a physician, Dr. Teagarden took part in all progressive movements and enterprises of the community. In the early days of her practice she gave 'first aid' courses to the girls of Weymouth college."

For 25 years she was president of the Green County Children's Aid Society. She was a member of the state humane society of the Pennsylvania Historical Society and of the Daughters of the American Revolution of Pittsburgh.

"She was especially interested in the welfare of young people. An act prepared by Dr. Teagarden for the protection of young girls was presented to the Pennsylvania legislature and was passed without a debate."

Michael H. Conley
Death at five o'clock Monday morning claimed Michael H. Conley, one of Seale county's prominent and lifelong citizens at his home near Otway, Pa., and graduated there. Afterward he studied law and was admitted to the bar in the State of Ohio.

After a short time here where he made a success of his life he went west and worked in different places. During the world war he came east and settled at Washington where he took up war work that kept him occupied until the time of his recent illness.

Attorney Glidden will be remembered by many residents here who will be sorry to learn of his death. The family was long identified with the First Presbyterian church of this city.

Oh, It's There!

Ouch, How It Pains!

Right Across the Small of the Back or Over the Kidneys!

LUMBAGO, RHEUMATISM, GOUT OR FAULTY KIDNEY ELIMINATION

All signals of distress. The kidneys have too much work to perform. Uric acid accumulates in the system in form of urate salts. Obtain at your nearest druggist that splendid discovery of Doctor Pierce's called "Auric" (Latin) "Auric" is more potent than lithia and dissolves uric acid as hot coffee does sugar.

Many of your neighbors have received benefit by taking Auric just as has Mr. Slagle.

Columbus, Ohio—Dr. Pierce's Auric (kidney and backache) Tablets are the best medicine I have ever taken for kidney disorders. My kidneys were congested and inactive. My back ached and was so sore I could not bear to touch it. In addition to my kidneys having my bladder was very weak. I had taken Auric only a very short time when I was rid of all my bladder weakness and my kidneys became active and normal. I do not suffer any more with my back. —Mouford Slagle, 447 N. High St.

Two Get Out Of Jail; One Caught

For the twentieth time in about six months the New Boston jail roof has been torn away by prisoners who generally make their escape. Sunday evening about nine o'clock Bert Lane and Dan McGuire, prisoners, broke through the roof and made their getaway. A broken automobile spring that had been used by the last prisoner had not been removed from the jail and the two men used this to knock a hole in the frail roof.

About an hour after their escape Lane was taken into custody when found on a village street. He was then placed in a cell. McGuire has not been located. This morning relatives of McGuire settled his case with Mayor Newberry. McGuire had been charged with forgery. The money obtained was made good by relatives.

Breaking through the roof is getting to be a habit with the village prisoners. Plans are being made for a new jail to be built in the back part of the present engine house.

CUBS OPEN IN CINCINNATI

CHICAGO, Feb. 7.—The training schedule of the Chicago Nationals has been completed except for a few details. It was announced today with the booking of exhibition games at Indianapolis April 10 and 11. Following these games the Cubs will go to Cincinnati, where they are scheduled to open the National league season April 12.

Leonard May Meet Britton

NEW YORK, Feb. 7.—Benny Leonard, world's lightweight boxing champion, may be matched with Jack Britton for a welterweight title bout in Madison Square Garden, March 7. Britton, it is said, has agreed to meet Leonard in a 15 round decision bout.

Bigelow Volley Ball

Is football in the eastern colleges as pure and unsullied? Now that the west has adopted the dry clemmer, isn't the east any sordid linen that might be washed? Can it be possible there is a difference of opinion existing in the east than the west? Have western coaches adopted methods to get stars that do not meet with the approval of the eastern mentors?

The Whitehills won two out of three from the Cyclones last night but both wins were 21-20 affairs which is just about as close as a volleyball contest can be. The work of Worrell, Monk and Blair featured in the victories while the snappy play of Cropper, Frazier and Corlie kept the Cyclones right behind the winners all the way, and helped to capture the second game.

Team	W.	L.	Pct.
Bakers	13	21	.385
Doughboys	21	5	.808

There were no individual stars in the League, teamwork featuring in the play of both teams. There were, however, four bright fights in the Doughboys lineup, even if they did lose two, those who should be mentioned are Chandler, Pursell, Taylor and Green.

Bakers: Adams, Bill, Koger, Cooper, Taylor and Dauffner.
Doughboys: Chandler, Pursell, Taylor, Green, Kicker and Hehl.

Dempsey May Meet Bob Martin

NEW YORK, February 7.—Jack Dempsey is, right now, like the man without a country. He is without opponents. The New York State Athletic Board put the kibosh on the proposed meeting of Dempsey and his meal ticket, Bill Brennan. There is not a chance for this pair to tangle, unless Brennan proves his right to the match. The Massachusetts Boxing Commission has also decreed against fooling the public with a Dempsey-Brennan match.

Leonard Vs Kansas Friday

Here is a little dope on Leonard and Kansas, who will clash in a New York ring Friday night.

Benny Leonard, whose right name is Benjamin Lebert, was born April 7, 1896, at New York.

Leonard is five feet five inches tall. He is supposed to defend the title at 135 pounds.

Many of the fight experts doubt the ability of Leonard to make the lightweight limit.

Leonard is a Hebrew. He has been under the management of Billy Gilson, the greater part of his career.

Leonard has been fighting since 1912. He has twice been knocked out. In 1912 by Joe Szegue in four rounds, and the following year by Frankie Fleming in five rounds.

Rocky Kansas, whose right name is Rocco Tozzo, was born April 21, 1893, at Buffalo, N. Y.

Kansas is five feet two inches tall and has no trouble making the lightweight limit, 135 pounds.

Kansas started his professional career in 1911 and has never been knocked out. He is an Italian-American.

Since the hour is to a decision, his chances largely hinge on the possibility of a knockout.

For that reason he may be expected to put up an aggressive fight.

Kansas feels he has learned much about Leonard from the previous bout.

Wiggins Outpoints Krohn

INDIANAPOLIS, IND., Feb. 7.—Chuck Wiggins, of Indianapolis, outpointed Harry Krohn of Akron in a ten-round boxing bout Monday.

The show marked the resumption of professional boxing in this city after having been prohibited for several years.

Wiggins won every round and in the second and eighth rounds all but had Krohn out. Wiggins weighed 162 pounds and Krohn 168.

Mohardt Signs With Tigers

SOUTH BEND, IND., Feb. 7.—Johnny Mohardt, Notre Dame baseball, football and track star, Tuesday announced he had signed with the Detroit American League club to be graduated from Notre Dame this year.

After the baseball season he said he planned to enter a medical school.

Mohardt recently was implicated in disclosures connecting him with a professional football game at Milwaukee but university officials took no action because his graduation from the school will make him ineligible from further athletic competition.

P. H. S. BOYS AT ATHENS ON WEEK END

The red and blue boys from Portsmouth high school will meet strong opponents Saturday night when the boys go to Athens to face the first strong high school gym squad, but five from that school, and the local girls meet the undefeated Ashland Kittens on the local floor. Both of these opponents won their previous games with the local teams this season, and both have an extra strong high school gym squad, but the boys will put up a game fight and will try hard to add a victory to their list.

MARIETTA, O., Feb. 7.—Dick Hobbs, who managed the Reading team of the International league last season, will go to Charlotte, N. C., this spring to manage the Charlotte team in the South Atlantic association. He will play as well as manage the team.

Has New Job

Bill McKee, long third sacker for Minneapolis last year, will not be with the Millers in '22. Long a favorite with Barney Dreyfuss, Bill has been given a position as coach and advisor to the Pirate youngsters. Then, too, Bill is still good enough to insert in most any major league lineup for a few days at a time and will be asked to keep in condition for emergencies.

NO CHANGE

There were no changes among the five leading five-man teams yesterday.

CONFERENCE COACHES DISCUSS WAYS TO PREVENT PROFESSIONALISM

CHICAGO, Feb. 7.—By the Associated Press—Athletic directors of seventeen midwestern universities in statements to the Associated Press today, suggested drastic ways of combating professionalism in college sports and agreed that prompt action must be taken, particularly in regard to football.

The suggestions included abolition of professional football, formation of a national organization to fight professionalism in colleges, and the press in preserving college amateurism, in cooperation with professional organizations to prevent signing of college men and a general athletic house-cleaning at once in all universities.

One director thought elimination of stadium drives would help, saying there was too great a temptation now to overlook professionalism for the sake of getting a winning team which would help in the stadium drive. Another placed the blame for professionalism squarely on the schools themselves, saying they "had whined at summer baseball so long" that they had brought on the recent revivals of professionalism football.

Summaries of the statements follow:

WAR AND GEOGRAPHY

THOUGH in no sense a compensation, the war and its results have provided a great stimulus to the study of geography. We had a like experience in our brush with Spain. When Dewey started us with his exploit at Manila there was a general pulling down of the atlas to discover where the Philippine Islands are located and our knowledge of world geography was suddenly enlarged.

In the recent greater conflict scarcely any part of the world escaped attention in the news. Not only so many new nations have been erected in Europe and Asia that we cannot be sure of the number, but points of land in the seas of which we never heard before have become of international importance. Who in looking at a map of the expanse of the Pacific would have considered Yap and its value? Not the size of an island but its location and the use to which it can be put determines the worth. If there were not so many islands scattered around the oceans there would be less causes of war. Because islands constitute so large a bone of contention in international conferences it is evident that statesmen study geography and ponder thoroughly the story it tells.

Possibly the experience of Great Britain is not properly appreciating the use to which an island could be put has made the nations wary in dealing with such matters. Heligoland, a little patch of rock in the North Sea, was traded to Germany. It was a frightfully costly bargain for England. From the tenacity with which the victors in the war are hanging on to what they secured in the division, the blunder will not be repeated knowingly.

In Eastern Europe and Asia geography is in a state of flux. Boundaries of nations may be changed in a day. Most of them would be if anybody dared. This situation makes it highly perplexing to keep up with the times. More than that the names of places are being altered to add to the confusion. Yet, if one would keep abreast of the news one would need devote a goodly part of one's time to geography and then could not be sure that the procession was not in advance. As a by-product of war we may be sure that increased knowledge of the geography of the world has made the world smaller and should make our minds broader.

HISTORY AND MYSTERY

AN exposition in New York City of "America's Making" has given rise to investigation and discussion on the subject of what part different nationalities have played in rearing the structure which we now call America. It is surprising how readily the things we accept as facts become matters of controversy when more closely investigated. Spaniards argue with Italians on the nationality of Columbus. The Welsh maintain that neither Spaniard nor Italian was the discoverer of America, but that a Welsh prince came here a little more than 300 years before Columbus. The Irish maintain that an Irish monk, St. Brendan, landed in America more than 900 years before the Indians greeted Columbus.

All this is interesting and should inspire the historian to further effort. We should not, however, in these controversies lose sight of the fact that what we are today is for most purposes more important than how we came to be what we are. A unified national group may well examine the origin of the various elements of which it is composed, but such efforts should all help to make it the more unified. When this spirit prevails, the historian may search to his heart's content.

EARNERS AND KEEPERS

IT is one what one receives but what one keeps that makes an individual's fortune or estate. Naturally the greater one's income the greater the satisfactions one may buy, but unless the big earner be a capable manager as well he may find himself "broke" in the event that his income is stopped. We are reminded of this on reading that a popular entertainer whose earnings have been estimated as high as \$1,000,000 a year had a credit balance of \$100,000 with a firm of stock brokers that failed a few weeks ago.

Some of this sum will be recovered, very likely; possibly all of it. If the whole amount were lost it would create no great hardship for the creditor, probably. Apparently, though, this man was engaged in speculation on a gigantic scale. He may have been among the lucky ones who send their money to Wall street or he may have been a "wooly lamb" and sheared often. The Wall street tradition hath it that no man can play the stock exchange for a long time without being sorry. Napoleons of speculation there have been who seems to be incapable of picking a bad one, but all ultimately met their Waterloo. The more money they had to begin with the longer they were able to last, but the "wolves" got them finally if they did not quit while still they had some money.

One whose income was a million a year might reasonably be expected to last as long as his job held out. That is if his operations were of speculative kind. Going in on an investment basis he might suffer many disappointments but hardly would be completely undone. A million a year must be rated "easy money" no matter how hard one works to get it and the receipt of that kind ever gives encouragement to hopes that more may be had easier. So the million dollar man may reasonably be envisaged as one inclined to take big risks. We wonder how much this one's hundred thousand credit balance with his broker represents. And how much of the earnings of the half dozen years he could muster for a "showdown."

POLLY AND HER PALS

New York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, February 7.—Underneath Broadway's fragrant bowl of roses Dixie Dixon found piercing thorns. She died in wild delirium from drug and drink in a public hospital calling for the negro mammy she had left only two months ago to seek life's repentance.

A sunny hearted girl with laughter on her lips, she plunged into the whirlpool—the cafes, the night life and dawn parties. In my roving I had seen her twice, her eyes fever bright and flushed with the life that glows like a dead, rotting phosphorescent fish along the White Way.

There was a night in a roving taxi. A visit to a drug den. A round of the illicit booze parlors. And then the race with Death in an ambulance. An old tale along the dazzling canyon. In philosophic tones Broadway booms its sorrow with "A good kid, but foolish," and its sparkling waters mock the lips of those who die.

Few, perchance, may stand the pace of the crimsoned turf of no restraints; but the majority are fed quickly to oblivion. Still they come! The ceaseless hordes. Young, beautiful and animated to feast the vultures and hear the voice of death.

A savage street—this thoroughfare that blinks with a million lights. It exalts the humble and shatters the proud and labels fame with little pine slabs in obscure Potter's Fields.

The luncheon hour reveals hundreds of these vibrant creatures—idle toys with souls of crepe de chine—sipping cocktails from silver flasks with heavy jeweled, beady eyed men. The newness of the life is apparent. The music, the lights, the gay chatter, the marvelous gowns act as an intoxicant and one can almost hear them say: "This is the life!"

Many of them are escorted for a brief time in Riverside Drive marble palaces with gold caparisoned ladders to attend every want. There are fur coats and gleaming jewels later to grace the unredeemed pledges in pawn shops. Then the quick descent. And how rapid and cruel it is!

On Amsterdam avenue is a little candy shop no bigger than a doll house. The tiny creton covered shelves are filled with jellies, jams and candy. You knock at the window like Hansel and Gretel and a head is poked out to take your order. The shop is not large enough to permit customers to enter. The proprietor, a woman, came from California with but \$40 in her pocket. The enterprise proved successful and she now earns a comfortable living.

He is extremely rich even as wealth is counted in New York. Twenty years ago he lived with his wife in a \$65 a month apartment and once she bought a \$12 hat—then considered highly extravagant. The other day, he told me, he came to New York from his suburban home

with his wife to shop. He left \$5,000 with the hotel cashier for C. O. D. packages that his wife would send home from shopping tours. In three days it was gone. He placed that much more at her disposal and it had vanished at the end of the week. "We had more fun, and more thrills," he said "when she bought the \$12 hat."

A new kind of city editor has been created. He is the city editor of the movie news dailies and his reporters are the intrepid camera men who are sent out to cover the thrilling events of the day pictorially. There are 14 of these city editors in New York and all of them come from executive jobs on newspapers along Park Row. The pay is from \$100 to \$175 a week. They write the headlines and captions for the movie news events and the work is said to be almost as thrilling as the regular newspaper job.

Sympathy

(New York Herald)

He talked of bitter things; of beaten arms;

Of friends who took to roads that made them strangers;

Of loves that were perplexing, fruitless games;

Of nights when death appeared the least of dangers.

And we who were not innocent of woe

Sat by and understood his troublous stories;

We mourned with him the hasty times that go

Leaving one worried over ended glories.

And then he told of weird, peculiar sorrows;

Of strangely dismal dreams and darker morrows

Than we had ever faced. But his emotion

Took us along in woe, far off lands,

To midnight walks on unfamiliar strands;

And we could follow, for we knew the ocean.

No Stirring Tale

"Did you hear about the poor fellow who swallowed a spoon?"

"No. What about him?"

"Why, he can't stir."

We Know Him

"What kind of a fellow is that?"

"Well, he is one of those fellows who always grabs the stool when there is a piano to be moved."

You will remember that any sign of haste in note writing is a discourtesy.

You will not underline words written in a letter unless the letter be very informal.

You will pay strict attention to your spelling in letters. Nothing is more deplorable than bad spelling.

Religion

Religion is the reason for folks being up late.

The lack of it causes em ter be down late.

Nobody is unhappy with it, or happy without it.

Its your best friend in adversity.

It dont ask nuthin except fer you ter be decent when your prosperous.

Religion is the one thing that will stand by you, so long as you stand by it.

Anybody who's against it is fillin his own interests.

You cant go rong with religion, but yer cant go rite without it.

Religion dont discriminate.

The poorest man on earth can git jest as much and jest as good quality as the richest.

Its the only thing in the world thats worth everything that you can git fer nuthin.

When youre got it, you know it, and when yer haint, your bound ter miss it.

If yer haint got religion theres something the matter with you.

Better git a littal and be cured, I say.

Strait Jacketed

A New Yorker on a business trip that took him through a certain section of the Southwest was anxious to leave town as soon as possible and demanded a time table from the only bellhop in the only hotel.

"Ain't none," replied the boy casually.

"No timetable?" ejaculated the city man. "But you have a railroad."

"Yeah," answered the boy, "and we usesta have a timetable till folks from other parts got to thinkin' the trains was supposed to stick to it."

Too Much

Struck by the sign "Iron Sinks," displayed in a shop window, a wag entered and announced that he was perfectly aware of the fact that "iron sank."

The proprietor's sense of adaptability rose to the occasion and he replied:

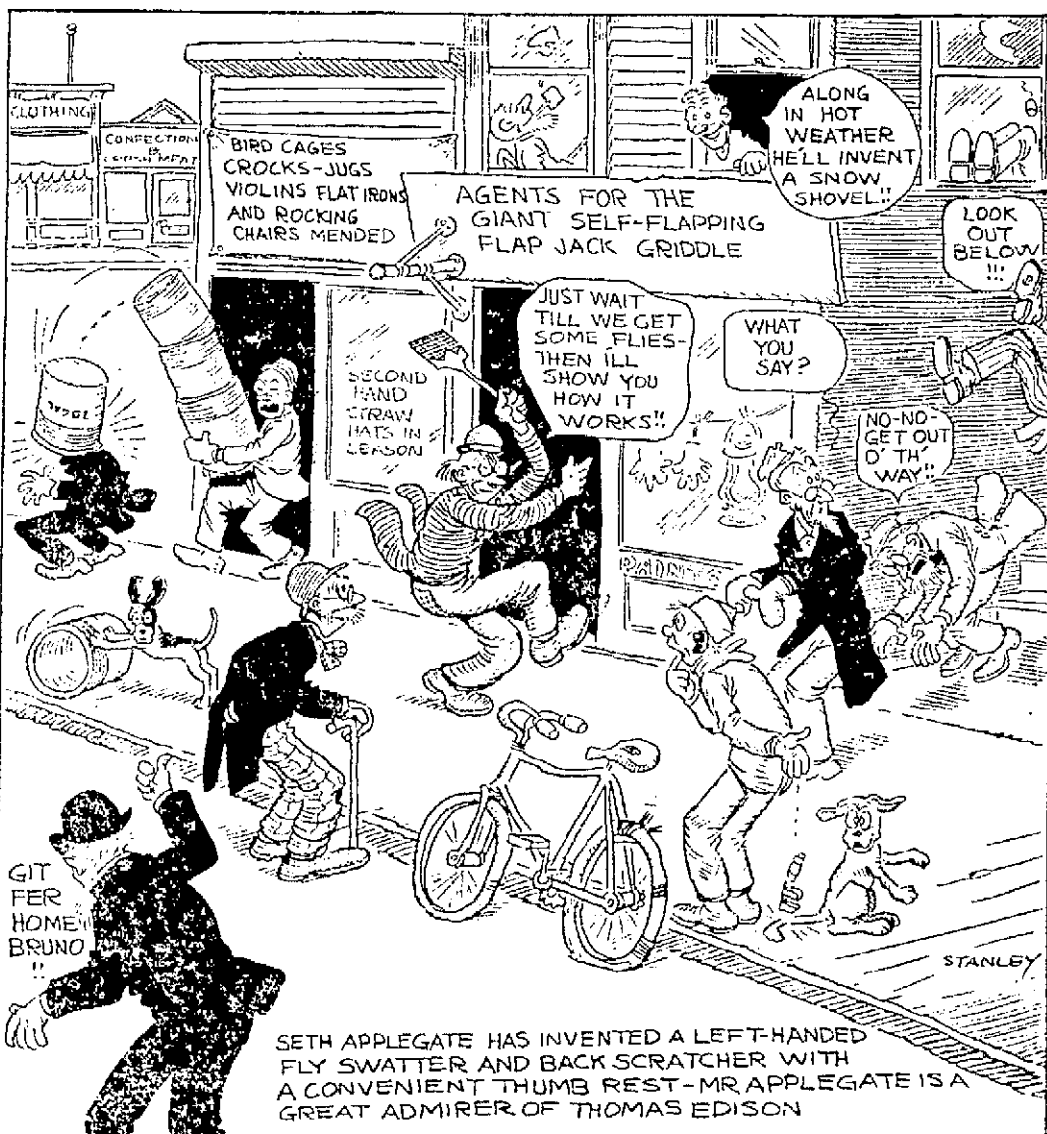

"Yes, and time flies, but sulphur springs, jam rolls, grass slopes, music stands, Niagara Falls, moonlight walks, sheep run, and holiday trips; scandal spreads, standard weights, India rubber tires, the organ stops, the world goes round, trade returns, and—"

But the visitor had bolted. After collecting his thoughts he returned, and showing his head at the doorway, shouted:

"Yes, I know, and marble stairs."

Out

"I can truly say, madam," began the educated-appearing prisoner, "that I shall actually regret the day my sentence expires and I leave these walls."

"Ah," breathed the sympathetic visitor. "I had heard this was a model prison but I never dreamed that it instilled such gratitude and depth of feeling in its inmates. And how much longer does your sentence run, my poor man?"

"Life, madam."
